Production area

It should be kept in mind that due to social reasons, the consumption of buffalo meat is restricted in India. While over 70% of Indians are non-vegetarian by choice or religious belief, consumption of beef and pork is limited. The slaughter of cow / Bull is prohibited in all but two states (Kerala and West Bengal). Although more emphasis is given on beef imports and states of Delhi, Mumbai, capital cities of in india and others metropolis do witness beef production.

Types

Beef meat available in India is the meat of the water buffalo. The meat consumed is generally lamb or goat, poultry etc. However, per capita consumption of meat, fish and poultry is far below that of the developed countries.

Here are some of the Beef Meat Cuts we are exporting :
