<u>Chick Crumbs</u>	<u>20kg</u>	<u>£11.45</u>
<u>Poultry Grower Pellets</u>	<u>20kg</u>	<u>£8.95</u>

Mixed Corn

Mixed Corn is a mixture of Wheat & Maize, suitable for all types of poultry and rowl from 4 weeks of age. Intended as a "Scratch" feed, to be offered with flint or mixed grit. Mixed Corn should account for up to 10% of your chickens total diet.

Protein: 10% Oil: 1.9% Fiber: 2% Ash: 1.5%

Layers Pellets & Layers Mash

Layers Pellets & Layers Mash can be fed from 3 weeks to the point of lay depletion. Also suitable for laying ducks and bantams. Contains optimum levels of essential fatty and amino acids for good egg size, with Calcium & Phosphorus to help good shell strength. Also contains natural pigments Lutein & Zeaxanthin from marigold and maize extracts and Citranaxanthin found naturally in fruits for a deep yolk colour.

Protein: 16% Oil: 3.5% Fiber: 3.5% Ash: 12.5%

Note : - Rate of the products Mention in the Website will be verified by day to day fluctuation in the Indian Agro Market Actual Rate of the Products will be provide at the time of final Confirmation of Order

Poultry Feeding Guidelines

All Dodson & Horrell Poultry Feeds are:

- # Non-Medicated
- # Contain No GM ingredients
- # Vegetarian Formula
- # Fully traceable raw material

Poultry Grower Pellets

Grower Pellets are formulated for young poultry, designed specifically to help support steady growth and sexual maturity. Poultry Grower Pellets are produced in pellet form to avoid feed wastage. Suitable for many birds as a free choice feed, but may also be fed as a restricted feed if required.

Grower Pellets are recommended to be fed from 6 - 8 weeks of age until the onset of lay, normally between 18 - 21 weeks of age.

Protein: 15% Oil: 3% Fiber: 4% Ash: 6%

Chick Crumbs

Chick Crumbs are a complementary feeding stuff for growing chicks, that contain quality oils and protein sources. Chick Crumbs can be fed ad lib from day one up to 6 - 8 weeks of age, when they can be transferred to Poultry Grower shown above.

Protein: 19% Oil: 4% Fiber: 4% Ash: 6.5%

Ostrea - Oystershell Grit

The best Calcium Addition for Chicken Food, that produces top quality eggshells that are more saleable. The Oystershell is washed, dried, heated, crushed & screened. The Oyster Shell is also Microbiologically Sterile.

Calcium min: 38% Sand (i.e. ash) max: 2%
